Product description

- 10-year warranty
- Highly efficient industrial energy storage system based on LiFePO4 technology
- Total capacity of the set 232,96kWh, useful energy 209,6kWh
- The set consists of 5 modules of 46,59kWh each
- Built-in BMS system and advanced liquid cooling ensuring high thermal stability
- High reliability and service life of over 6000 charge and discharge cycles (at EOL 70% at 25°C)
- Operation in the voltage range from 728V to 949V, nominal voltage 832V
- Maximum charge and discharge current 140A
- Compatible with the CAN communication protocol for integration with inverters and remote management
- Built-in protections: cell balancing, protection against overvoltage, over-discharge, short circuit, overheating and soft-start function
- Low monthly self-discharge only 0,2%
- Designed for installation in a rack cabinet (floor installation)
- Operation in a wide temperature range from -20°C to +55°C
- Resistance to weather conditions - IP65 rating
- Recommended installation height up to 2000m above sea level.
- Housing color white
- System manufacturer: V-TAC
