Product description

• Red DC cable with a length of 2 meters intended for connecting V-TAC energy storage units with a capacity of 5.12kWh and 10.24kWh. The product ensures a stable and safe connection between the battery and the power system. The cable structure is made of durable materials, ensuring lightness and easy installation. Cable intended for photovoltaic installations and battery sets, ensuring reliable and long-lasting energy transfer. Compatible with V-TAC 5.12kWh batteries in white SKU 12278 and black SKU 12281, as well as with V-TAC 10.24kWh models in white SKU 12279 and black SKU 12282.

- Technical specifications
- Length 2 meters
- Color red
- DC cable type
- Applicable to 5.12kWh and 10.24kWh batteries
- Compatibility models 12278, 12281, 12279, 12282
- Connectors adapted for battery installations
- Long life design
- Intended for photovoltaic and battery systems
