Product description

- Black DC cable with a length of 2 meters intended for connecting V-TAC energy storage units with a capacity of 14.33kWh and 16.07kWh. The cable ensures a stable, safe and long-lasting connection between the battery and the power system. The design is based on durable materials that ensure lightness and easy installation, making the cable ideal for use in photovoltaic installations and energy storage. Compatible with V-TAC battery 14.33kWh SKU 11525 and 16.07kWh models in black SKU 12335 and white SKU 12334.
- Technical specifications
- Length 2 meters
- Color: black
- DC cable type
- Applicable to 14.33kWh and 16.07kWh batteries
- Compatibility models 11525, 12335, 12334
- Connectors adapted for battery installations
- Long life design
- Intended for photovoltaic systems and energy storage
