Product description

• The V-TAC LED bulb with a GU10 base has a 6-year warranty and uses new generation CREE chips that ensure high reliability, long life and excellent light quality. CREE LED is a world leader in LED technology with over 35 years of experience and over 1800 patents, thanks to which the bulb offers stable operation and high efficiency. The 4.5W model is an energy-saving replacement for the traditional 50W halogen bulb. The luminous flux of 345 lumens and the beam angle of 38 degrees make the light precise and well directed. The warm color of 3000K creates a pleasant atmosphere in rooms. The bulb is made of durable materials ensuring lightness and easy installation. Thanks to CREE technology and a long life of 25000 hours, it is perfect for hotels, bars, service premises, residential lighting and exhibition stands.
