Product description

• The V-TAC R80 LED bulb with an E27 base has a 6-year warranty and uses new generation SMD CREE technology, ensuring high reliability, durability and stable operation. CREE chips are a global leader in LED technology with over 35 years of experience and over 1800 patents, which translates into exceptional performance and long life. The 11W model replaces the traditional 75W halogen bulb, offering significantly lower energy consumption while maintaining high brightness. The luminous flux of 1055 lumens and the wide viewing angle of 120 degrees ensure strong and even lighting. The bulb is made of durable materials, ensuring lightness and easy installation, and the long life of 25000 hours makes it ideal for home and commercial applications.
