Product description

• The V-TAC R50 LED bulb with an E14 base has a 6-year warranty and uses modern SMD CREE technology which ensures high reliability, durability and excellent light efficiency. CREE chips are a world leader in LED technology with over 35 years of experience and over 1800 patents, which guarantees stable operation and long product life. The 4.8W model is an energy-saving replacement for the traditional 40W halogen bulb. The luminous flux of 470 lumens and the wide viewing angle of 120 degrees enable uniform illumination of residential, commercial and decorative spaces. The bulb is made of durable materials ensuring lightness and easy installation, and the long life of 25000 hours guarantees many years of use without the need for frequent replacement.
