Product description

• The LED bulb based on SMD CREE technology has a warranty of 6 years. The new generation of bulbs with CREE chip technology ensures high reliability and exceptional durability. CREE LED is a world leader in LED technology with over 35 years of experience, 1800 patents and exceptional light efficiency and precision. The product replaces the classic 50W halogen bulb, offering much lower energy consumption while maintaining high brightness. The bulb design is intended for fittings with an E27 base. Made of durable materials, ensuring lightness and easy installation. The lifetime is 25000 hours and ensures long-lasting, stable performance. The bulb is ideal for home and commercial lighting, in living rooms, decorative areas, lounges, lobbies and other spaces requiring high-quality light.
