Product description

• The V-TAC GU10 LED bulb with a 6 year warranty uses new generation CREE chips that ensure exceptional reliability, high efficiency and long life. CREE LED is a world leader in lighting technology with over 35 years of experience and over 1800 patents, which translates into stable operation and high light quality. The 6W model is an energy-saving replacement for the traditional 60W halogen bulb. The bulb's structure is made of durable materials ensuring lightness and easy installation in standard GU10 sockets. The long lifespan of 25000 hours makes the bulb perfect for long-term use in residential and commercial spaces.
