## Product description

• The V-TAC T26 LED bulb with an E14 base has a 6-year warranty and uses SMD CREE technology, which ensures high reliability, energy efficiency and long life. CREE chips are a world leader in LED technology with over 35 years of experience and over 1800 patents, which guarantees excellent light efficiency and stable operation. The 2W model is an energy-saving replacement for the 18W halogen bulb. The luminous flux of 180 lumens and the wide beam angle of 200 degrees make the light evenly fill the space. The compact T26 form and lightweight structure made of durable materials ensure easy installation and wide range of applications. A long lifespan of 25000 hours makes this bulb an ideal choice for long-term use.
