## Product description

• The V-TAC A60 LED bulb with an E27 base has a 6-year warranty and uses the new generation SMD CREE technology, which ensures high reliability, durability and stable operation for a long time. CREE chips are the world leader in LED technology with over 35 years of experience and over 1800 patents, which translates into exceptional light efficiency. The 8.5W model is an energy-saving replacement for the traditional 60W halogen bulb. The luminous flux of 806 lumens and the wide viewing angle of 200 degrees enable uniform illumination of residential and commercial spaces. The bulb's structure is made of durable materials ensuring lightness and easy installation, and the long life of 25000 hours makes the product perfect for long-term use.
