Product description

• The V-TAC A60 LED bulb with an E27 base has a 6-year warranty and uses advanced SMD CREE technology which ensures high reliability, stable operation and long service life. CREE chips are a world leader in LED technology with over 35 years of experience and over 1800 patents, which translates into high light quality and energy efficiency. The 10.5W model is an energy-saving replacement for the 75W halogen bulb. The luminous flux of 1055 lumens and the wide viewing angle of 200 degrees guarantee uniform illumination of home and commercial spaces. The bulb is made of durable materials ensuring lightness and easy installation, and the long life of 25000 hours allows for many years of use without the need for frequent replacement.
