Product description

• The set of three V-TAC GU10 LED bulbs has been designed as an efficient alternative to traditional 70W light sources. SMD technology ensures stable operation, high reliability and a longer life of 20000 hours. The luminous flux of 1000 lumens and the wide viewing angle of 110 degrees enable even illumination of residential and commercial rooms. The bulbs are made of durable materials ensuring lightness and easy installation in standard GU10 fixtures. The 3 pieces packaging was prepared especially for retail sales and is a practical solution for homes, hotels, commercial premises and decorative applications.
