## Product description

- Presence sensor integrated with the electronics, capable of detecting heat signatures. Adjustable delay time and ambient light. For versatile applications. High-quality receptors ensure immediate action. IP54 protection. An effective energy saving and safety system. Compatible with the entire LED range (up to 600W).
- This occupancy sensor combines advanced technology with practical solutions, offering reliable detection and automatic lighting control. Its high quality workmanship and versatility of applications make it an ideal solution for a variety of environments, ensuring energy savings and safety.
