Product description

• The V-TAC LED bulb with an E14 base based on modern SMD technology ensures high reliability and durability in everyday use. The product replaces a traditional halogen bulb with a power of 18W, offering significantly lower energy consumption while maintaining appropriate brightness. The structure is made of durable materials, ensuring lightness and easy installation in any standard E14 lampholder. The lifespan is 20000 hours and exceeds the lifespan of classic halogen lamps. The bulb is ideal for residential and commercial lighting, including living rooms, living rooms, decorative areas and lounge spaces.
