Product description

• The V-TAC LED ceiling lamp with three integrated light sources was designed for modern residential and commercial spaces. The body is made of metal, aluminum and acrylic, ensuring durability and an aesthetic matte black finish. The fixture emits a total of 2160 lumens and offers a wide viewing angle of 280 degrees, which allows for even illumination of the room. The 3000K light color creates a warm and comfortable atmosphere. The lamp is intended for indoor use and is perfect for hotels, restaurants, apartments, commercial premises and decorative arrangements. The modern form and high-quality materials make the fixture a functional and elegant complement to contemporary interiors.
