Product description

• The V-TAC LED ceiling lamp with three integrated light sources was designed for modern residential and commercial spaces. The structure made of steel, aluminum and acrylic gives the frame an elegant look and ensures durability in everyday use. The matt black finish makes the lamp fit perfectly into modern arrangements. Built-in LED sources with a power of 3x6W generate a total of 2160 lumens and emit light with a color temperature of 3000K. A wide beam angle of 280 degrees allows for even illumination of the room. The lamp is intended for installation inside buildings and is perfect for hotels, restaurants, apartments, commercial premises and decorative spaces. It is a combination of aesthetics and functionality that emphasizes the character of modern interiors.
