Product description

• The V-TAC LED wall lamp with one built-in light source has been designed as an elegant element of modern residential and commercial interiors. The body is made of steel, aluminum and acrylic, ensuring durability and an aesthetic matte black finish. The built-in LED module with a power of 6W generates 720 lumens and emits warm light with a color of 3000K. A wide lighting angle of 280 degrees allows for even illumination of the space. The luminaire is intended for indoor use and is suitable for hotels, restaurants, apartments, commercial premises and decorative spaces. It combines modern aesthetics with practical lighting tailored to contemporary arrangements.
