Product description

• The V-TAC wall lamp was designed as a modern, decorative lighting element for residential and commercial interiors. A white lampshade with a rounded form combined with a brushed nickel arm creates an elegant and timeless composition. The structure made of ceramics, metal and acrylic guarantees durability and aesthetic appearance in everyday use. The built-in LED module with a power of 10W generates 1200 lumens and emits a warm light color of 3000K. A wide lighting angle of 280 degrees ensures even illumination of the space. The luminaire is intended for internal installation and is perfect for hotels, restaurants, apartments, commercial premises and modern decorative spaces.
