Product description

• The V-TAC hanging lamp in smoked gray with gold accents is characterized by a modern, elegant look. A slim, gently contoured body made of metal and acrylic gives the fixture a minimalist character and a decorative lighting effect. Built-in 2x5W LED sources generate 1200 lumens and emit warm light of 3000K. A wide beam angle of 280 degrees makes the light spread evenly throughout the room. The lamp is intended for indoor use and installation above kitchen islands, tables, in restaurants, hotels and modern living spaces. Thanks to the combination of black and gold, the frame is an elegant accent in modern interior design.
