Product description

• The V-TAC solar wall lamp is designed as functional outdoor lighting with the option of changing the CCT light color. The product has a 3 year warranty and uses a monocrystalline DC solar panel 5V 2.3W which eliminates the cost of electricity. The lamp is equipped with a Li Ion 1800mAh battery charged in 6 to 8 hours and provides 10 to 12 hours of operation when fully charged. The lampshade in the form of a milky ball ensures gentle and even light dispersion. The lighting angle of 225 degrees allows for wide illumination of the space. The IP54 rating housing is resistant to external conditions and is suitable for use in gardens, gates, balconies, facades, gazebos, stairs, fences and terraces. The lamp has an automatic mode that turns the light on at dusk and off at dawn, and allows you to adjust the light color and settings using the remote control.
