Product description

• The V-TAC solar amplifier has a 3 year warranty and a high-performance DC 5V 2.3W monocrystalline panel, which enables completely cost-free solar energy supply. The built-in Li Ion 1800mAh battery provides a long operating time of 10 to 12 hours after a full charge of 6 to 8 hours. The product offers the ability to smoothly adjust the CCT light color using a remote control. The lamp's design uses a vertical translucent lampshade that gives a decorative lighting effect and directionally highlights the illuminated surface. The housing is made of plastic and has an IP54 rating, which makes the lamp resistant to weather conditions. Thanks to its compact form and easy installation without wiring, the lamp is a practical solution for gates, gardens, balconies, gazebos, fences and home spaces.
