Product description

• The V-TAC wall lamp has a 3 year warranty and is a modern alternative to traditional facade fixtures. The aluminum casing has a compact cylindrical form and a matte black finish that fits well with modern facades and utility spaces. The design designed for a standard GU10 base allows quick installation and selection of the light source according to the need. The IP44 rating provides protection against weather conditions when installed outdoors or in semi-open spaces. The lamp is suitable for lighting communication routes, stairs, passages, paths and corridors in residential and commercial buildings. Aluminum as the housing material guarantees a long life and resistance to everyday use.
