

SOLAR ENERGY

Wifi Dongle for Solar I nverter

VT-660000 SKU: 11378

Plug and play
No extra power supply is required

Waterproof design
Resistant to bad weather

Independent module
Protecting internal parts of inverter

External design
External indicator lights,
ensuring collection status at a
glance, easy to replace
faulty equipment

SOLAR ENERGY

Compatible with above on grid 1phase and 3phase models

Remote Communication Interface	2.4G Wifi
GNSS	——
Antenna	Internal Antenna
Data Interface	RS485/RS232/TTL
Working Voltage	DC 5-12V
Working Power	1.5W
SIM Card	——
Memory	8M Flash
Working Temperature	-40°C to +80°C
Working Humidity	<90% (No Condensation)
No. of Connections	One
Serial Communication Rate	9600bps(1200-115200bps Configurable)
Data Acquisition Interval	Default: 5 mins (1-15 mins Configurable)
User Configuration	BT/APP/Web
Firmware Upgrade	BT/Remote/Web
Real-time Control	√
Data resuming	√
Power-off reminder	√
