INSTRUCTION MANUAL

LED SOLAR WALL LIGHT WITH SENSOR

IP65
RATING

03 YEAR
WARRANTY*

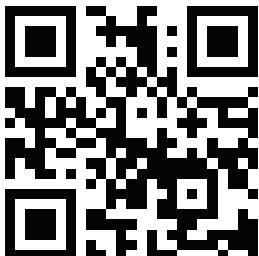

INTRODUCTION & WARRANTY

Thank you for selecting and buying V-TAC product. V-TAC will serve you the best. Please read these instructions carefully before starting the installation and keep this manual handy for future reference. If you have any another query, please contact our dealer or local vendor from whom you have purchased the product. They are trained and ready to serve you at the best. The warranty is valid for 3 years from the date of purchase. The warranty does not apply to damage caused by incorrect installation or abnormal wear and tear. The company gives no warranty against damage to any surface due to incorrect removal and installation of the product. The products are suitable for 10-12 Hours Daily operation. Usage of product for 24 Hours a day would void the warranty. This product is warranted for manufacturing defects only.

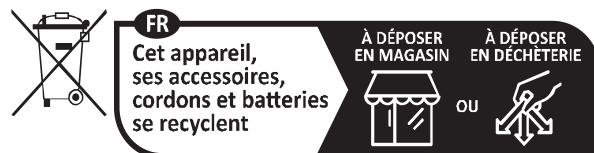

This marking indicates that this product should not be disposed of with other household wastes.

TECHNICAL DATA

Model	VT-11025CCT
SKU	24096, 24097
Lumens	300lm
Power	2.5W
LEDs	SMD2835 x 24PCS
Battery	DC 3.7V, Lithium, 18650, 1200mAh, 4.44Wh
Solar Panel	Mono, DC 0.7W, 5V
Color Temperature	CCT (6000K, 4000K, 3000K)
Sensor	<6m, 120°, PIR Sensor
Beam Angle	120° x 60°
2 Optional Work Modes	Mode A: 100% Detected + 3% Dim Mode B: 100% Detected + Off
Charging Time	5 Hours Strong Sunshine to Fully Charge
Working Time	50 Hours Max.
Installation Height	2-4 Mtrs
Lighting Area	30m ²
Body Type	ABS+PC
Dimension	75.6*137.6*94.8mm

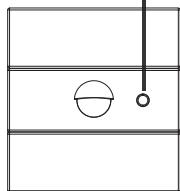

WARRANTY

1. This is a solar-powered lamp. Please install it in a location that receives sufficient sunlight.
2. The lamp charges via solar energy during the day and automatically lights up at night.
3. The lamp will continue to charge during the day even when switched off.
4. Lighting duration may vary based on sunlight exposure and selected working mode.
5. Equipped with overcharge and over-discharge protection for enhanced safety and durability.
6. The lamp contains a built-in rechargeable battery, which is replaceable.
7. Do not disassemble the lamp unless you are a qualified professional.
8. Do not dispose of the battery with household waste, as it may cause an explosion risk.

PACKAGE CONTENT

1*Lamp

2*Screws

2*Cable Ties

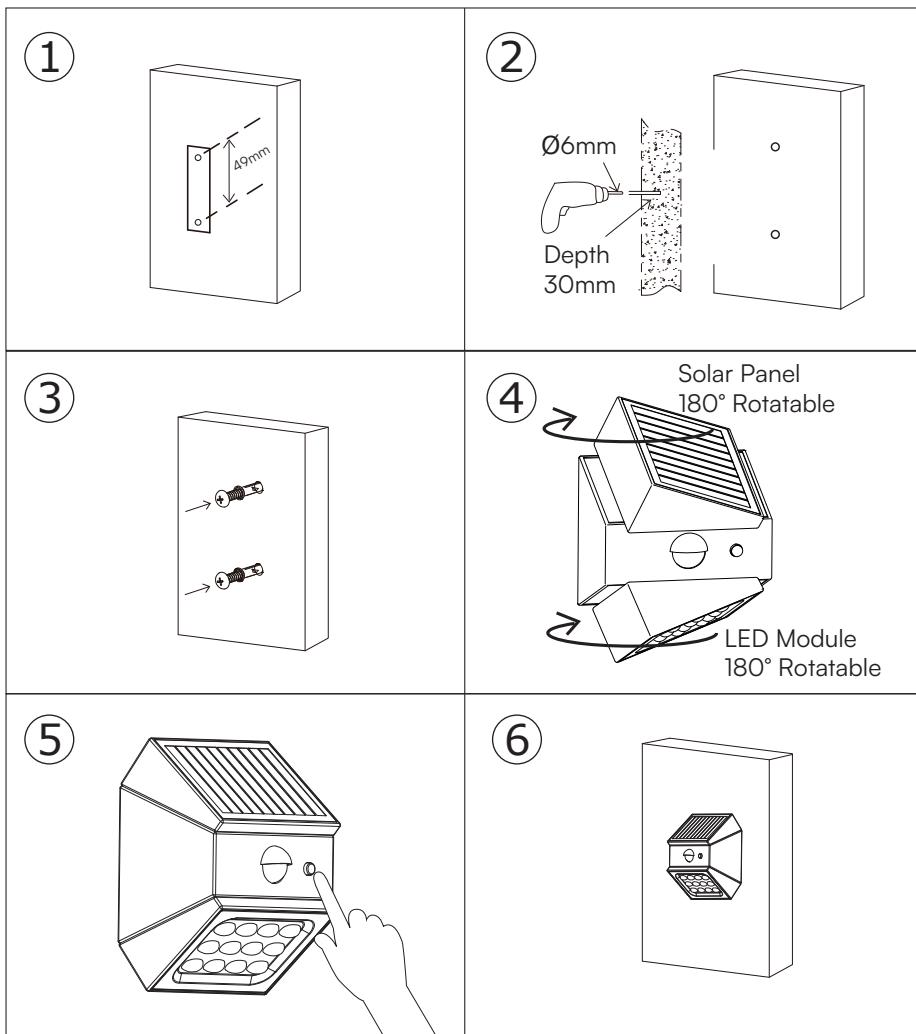

1*Measure Card

1*User Manual

INSTALLATION INSTRUCTIONS

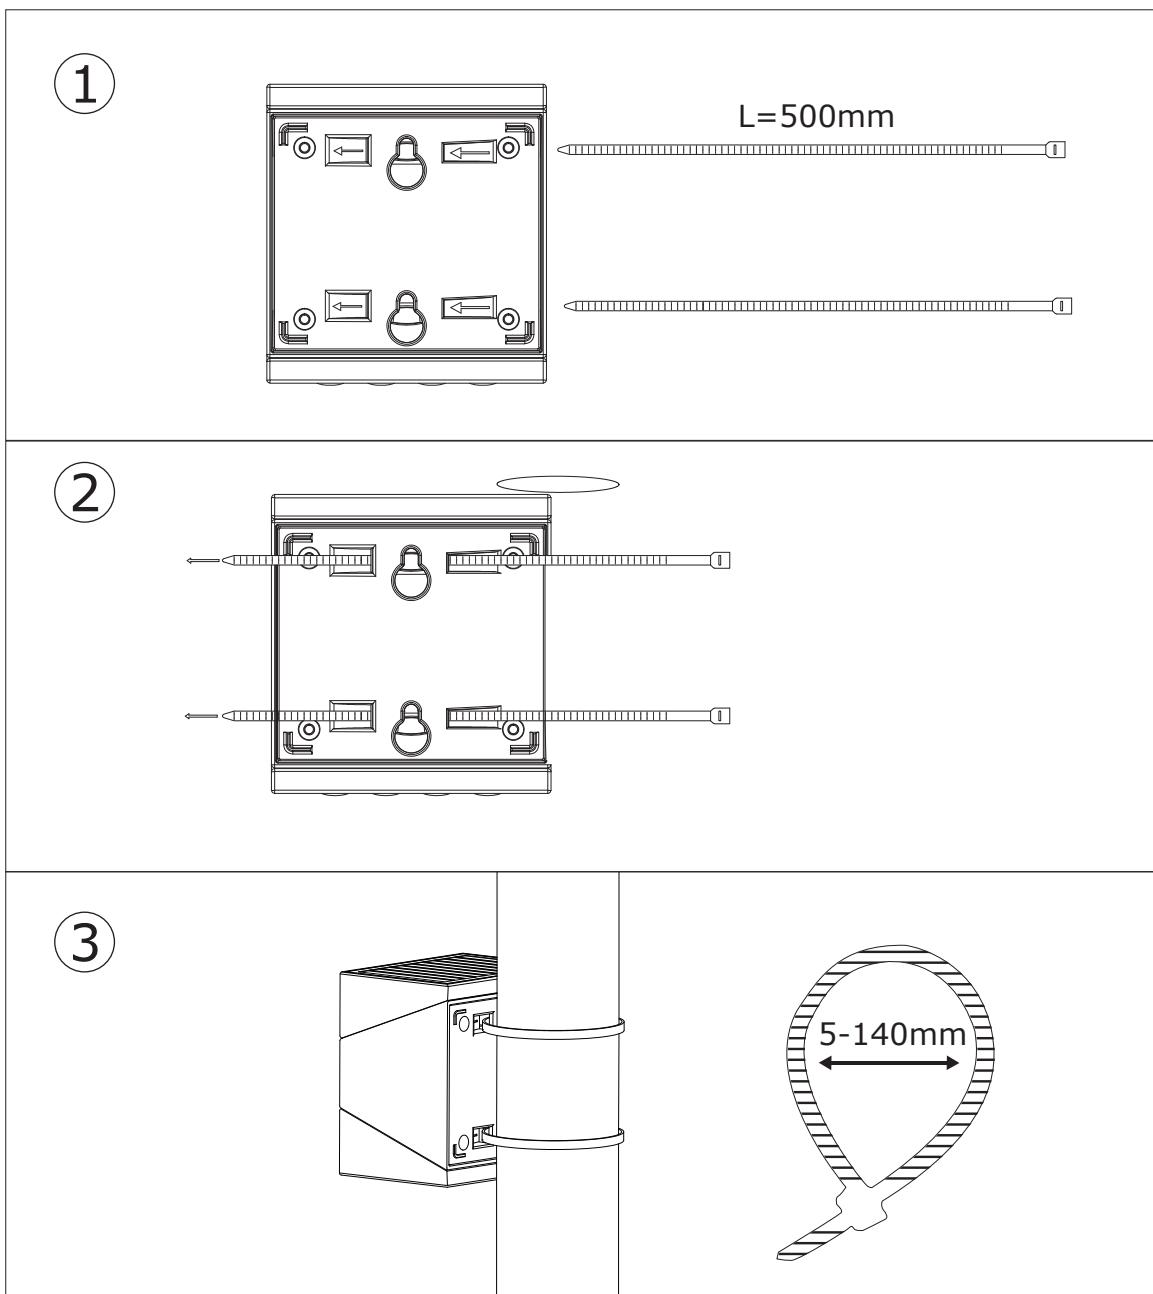

INSTALLATION A: WALL MOUNT WITH SCREWS

1. Please use the measure card to mark the holes.
2. Drill 2 holes with a diameter of 6mm and a depth of 30mm.
3. Fix the expansion plugs into the holes, fix the screws into the expansion plugs, allow the screws to protrude slightly by about 3-5mm.
4. Rotate the solar panel and led module separately to set required shape.
5. Press the button on the lamp to turn it on and select required work mode and CCT.
6. Hang the lamp on the screws and fix it in place.

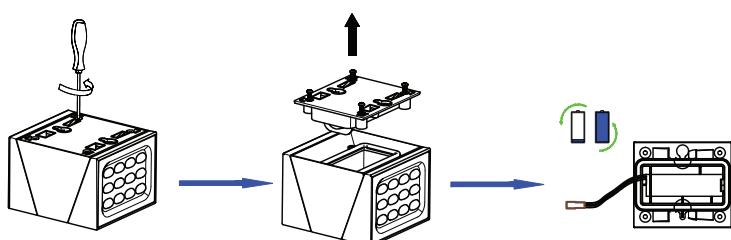

INSTALLATION B: FIX WITH CABLE TIES

1. Select a suitable installation location according to the size of the cable ties.
2. Pass the two cable ties through the holes in the direction of the arrows.
3. Lock the cable ties.

BATTERY REPLACEMENT INSTRUCTIONS

1. Remove the Rear Cover Screws
2. Disconnect the Battery Terminal & Remove the Cover
3. Replace the Battery

IMPORTANT NOTES

- This product contains battery type "Secondary" (rechargeable).
- Electrical and electronic equipment that has become waste is known as old equipment/device. Old devices must not be disposed of with other household waste.
- Owners of old devices at the end of its service life must return the device by taking them to the collection points set up by public waste disposal authorities or distributors. This return does not entail any costs for you.
- Owners of old devices have an obligation to remove accessible batteries / rechargeable batteries as well as non-destructively removable lamps from the old device prior to return. This does not apply if old devices are being prepared for reuse with the participation of a public law firm.
- Battery removal warning: The battery contained in this product must be removed only by professional personnel only. The battery must never be removed by the end user, if not removed correctly it could damage the battery which could cause fire.
- Batteries removed from an old electronic device should be disposed of separately. This return of battery does not entail any costs for you and the user is obliged to return the battery.
- Please make sure that this product is not powered on when removing the battery. Fire hazard! Avoid short-circuiting the contacts of a detached battery. Do not incinerate the battery. Please handle the battery with Caution!
- If electrical appliances or batteries are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and well-being.

- The symbol of "Crossed rubbish bins "indicates that this product should not be disposed of with other household wastes and must be collected separately from unsorted municipal waste at the end of its service life.
- Please use the link below to view the online directory of the collection and return points:<https://www.ear-system.de/ear-verzeichnis/sammel-und-ruecknahmestellen>

SOLAR PANEL MAINTENANCE & WARNING

- Do not use solvents, petrol, etc. Otherwise the light will be damaged.
- Clean the light with a dry, lint-free cloth.
- Check the solar panel for dirt regularly. If dirt or is present remove it to guarantee flawless function of the product.
- Especially during the winter, keep the product free from snow and ice.
- Confirm installation direction is correct (solar panel should be at top)
- Confirm no objects blocking the solar panel to receive sunlight
- Keep away from the fire.
- Don't immerse in the water
