**03** YEAR  
**WARRANTY\***

This product contains a light source of energy efficiency class '<E>', where '<E>' shall be replaced by the energy efficiency class of the contained light source.

#### INTRODUCTION & WARRANTY

Thank you for selecting and buying V-TAC product. V-TAC will serve you the best. Please read these instructions carefully before starting the installation and keep this manual handy for future reference. If you have any another query, please contact our dealer or local vendor from whom you have purchased the product. They are trained and ready to serve you at the best. The warranty is valid for 3 years from the date of purchase. The warranty does not apply to damage caused by incorrect installation or abnormal wear and tear. The company gives no warranty against damage to any surface due to incorrect removal and installation of the product. The products are suitable for 10-12 Hours Daily operation. Usage of product for 24 Hours a day would void the warranty. This product is warranted for manufacturing defects only.

#### WARNING

1. Please make sure to turn off the power before starting the installation.
2. Installation should only be done by a certified electrician.
3. The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.
4. If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid a hazard.
5. For Indoor use only

This marking indicates that this product should not be disposed of with other household wastes.

Caution, risk of electric shock.

Luminaires not suitable for covering with thermally insulating material.

Replaceable light source  
by a professional

Replaceable control  
gear by a professional

## INSTALLATION DIAGRAM

## INSTALLATION INSTRUCTIONS

1. Ensure the power is turned off before starting the installation.
2. Cut an appropriately sized hole in the ceiling.
3. Mount the panel securely into the ceiling opening.
4. Connect the DC cable from the panel to the driver.
5. Connect the AC source cable to the input side of the driver.
6. Turn on the power and test the lamp.

**Note:** The panel works on DC 30-40V, please connect correctly with the conductor before connecting the conductor to the power supply main.

## DISMANTLING INSTRUCTIONS

(For Market surveillance team only)

1. Dismantle the diffuser

2. The light source module was illuminated and tested via connection to its driver

**Note:** Light source removal will void the warranty
